

## Sweeper Attachment

Attachments for Sweepers - AUSA lift trucks provide supreme functionality and are popular for their ergonomic, highly modular and compact design. They provide versatility and stability while handling loads on the jobsite and are considered very reliable. With regards to different forklifts, AUSA units have a large diameter of their wheels which helps to ensure favorable load suspension in the cabin and in the forks. This allows the forklift to produce an optimal working productivity over uneven and variable surfaces.

AUSA company head office is situated in Manresa, Spain which is located in the interior of the province of Barcelona. The production factory is likewise at this location and boasts a total surface area of more than 64,000 square meters. AUSA has subsidiaries located in the China, UK, Germany, Madrid, France and Florida. The business exports more than 60% of the machines they produce and sells its products all through two hundred twenty five distributors in more than 70 nations.

Each of the AUSA forklifts is obtainable outfitted together with an automatic hydrostatic transmission. This gives precision of movement and automatic braking in deceleration of the lift truck which gives this machine an added level of safety and productivity. The hydrostatic transmission enables the operator to quickly adapt to the lift truck which is essential whenever the load is really not easy to handle and when terrain conditions are difficult.

The operator cab on the AUSA forklift is the only one accessible that is frontal-folded to permit efficient and easy access for periodical maintenance. Highly modular, these cabins are accessible semi-closed, soundproof closed or open. For northern weather conditions heated cabs are an option, plus, air conditioning is integrated in a rear post of the cabin. Different attachments, tire widths and grips are even obtainable so as to suit whichever of the forklift models.

A world leader in compact equipment, AUSA also specializes in tool carrier vehicles, urban sweepers and site dumpers. With service and sales all over seventy countries within 5 continents and over two hundred sales depots all around the globe, AUSA is an industry leader.
