

Meritor Parts

Meritor Parts - The Meritor Business is a leading international dealer established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems along with several modules and parts to the original machinery manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor prides itself in the company's unique energy and feels that this particular energy contributes to their competitive advantage in the international operations. The company values all of their clients and would like to guarantee their success while anticipating their diverse needs. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred people, Meritor encourages collaboration and innovation among a team of experienced experts.

Meritor strongly believes in only employing future focused workers. These top-caliber people could quickly adapt to changing environments and freely exhibit the level of commitment and performance considered necessary in order to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor offers their employees different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their global engineering employees.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the globe in 19 nations and in 5 different continents.

They have their supplier network which is particularly situated so as to support the growth of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in every part of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business methods and implement lean techniques.
